## Rating Rationale

February 22, 2017 | Mumbai

## Tata Capital Financial Services Limited

Rating Perpetual Bonds Programme upgraded to 'CRISIL AA/Stable'

## Rating Action

Rs.200 crore Perpetual Bonds Programme	CRISIL AA/Stable (Upgraded from 'CRISIL AA-/Stable')
Non Convertible Debentures Aggregating Rs.11,568.30 crore (Reduced from Rs.12,847.30 crore)	CRISIL AA+/Stable (Reaffirmed)
Rs.1000 crore Subordinated Debt	CRISIL AA+/Stable (Reaffirmed)

1 crore = 10 million

Refer to annexure for Details of Instruments &amp; Bank Facilities

## Detailed Rationale

CRISIL has upgraded its rating on the perpetual bonds of Tata Capital Financial Services Limited (TCFSL) to '**CRISIL AA/Stable**' from '**CRISIL AA-/Stable**'. The rating action follows the revision in CRISIL's criteria for rating hybrid instruments issued by non-banking financial companies (NBFCs; Please refer to CRISIL publication '**CRISIL Criteria for Rating Hybrid Instruments Issued by NBFCs/HFCs**' dated December 2016). Additionally, CRISIL has withdrawn its ratings on non-convertible debentures aggregating to Rs 1,279 crore as they have been redeemed and there is no amount outstanding against them. The rating on all the other debt instruments has been reaffirmed at '**CRISIL AA+/Stable**'.

The rating upgrade on the perpetual bonds factors in the strong financial flexibility of TCFSL derived from being a part of the Tata Capital group; the group benefits from substantial support from the ultimate parent, Tata Sons Ltd (Tata Sons; rated '**CRISIL AAA/FAAA/Stable/CRISIL A1+**'). Tata Sons has infused equity capital of around Rs 2,800 crore in Tata Capital Ltd (TCL; rated '**CRISIL AA+/Stable/CRISIL A1+**') since its inception. TCL has infused capital of Rs 160 crore and Rs 385 crore through compulsorily convertible preference shares (CCPS) in fiscal 2016 and in the second quarter of fiscal 2017, respectively, in TCFSL.

The ratings continue to be centrally based on the strong support that TCL and its subsidiaries, are expected to receive from the ultimate parent, Tata Sons. The ratings also factor in Tata Capital group's adequate capitalisation and diversified resource profile. These rating strengths are partially offset by Tata Capital group's modest asset quality and average earnings profile.

## Analytical Approach

For arriving at its ratings, CRISIL has combined the business and financial risk profiles of all Tata Capital group companies (including TCFSL, Tata Capital Housing Finance Limited [TCHFL; '**CRISIL AA+/Stable/CRISIL A1+**'], and Tata Cleantech Capital Limited [TCCL; '**CRISIL AA+/Stable/CRISIL A1+**']). The companies, collectively referred to herein as Tata Capital, have significant operational and management linkages, and operate under the Tata Capital brand. Furthermore, most of TCL's earnings (on a consolidated basis; excluding one-offs) is accounted for by its two main subsidiaries, TCHFL and TCFSL.

## Key Rating Drivers &amp; Detailed Description

## Strengths

**\* Strategic importance to, and expectation of strong support from the ultimate parent, Tata Sons Ltd**

CRISIL's ratings on debt instruments of TCFSL continue to be centrally based on the strong support that TCL and its subsidiaries are expected to receive from the ultimate parent, Tata Sons. This is because of Tata Sons' majority ownership in TCL and the importance of the financial services business to the Tata group.

Tata Sons directly owns 93.22% of TCL's equity shares and most of the remaining stake is held by other Tata group companies and trusts. Tata Sons also has personnel from its senior management on TCL's board. Tata Sons has infused equity capital of around Rs.2,800 crore in TCL since TCL's inception. Tata Capital is the Tata group's financial services arm, and remains critical to the group, given the growth opportunities in this sector over the medium to long term. Tata Capital is also strategically important to the Tata group because it caters to the funding requirements of various entities associated with the group, such as its suppliers, vendors, and dealers. The shared brand and infrastructural synergies with various Tata group companies strengthen the integration of Tata Capital with the Tata group. CRISIL believes that Tata Sons will continue to have majority ownership in, and management control of TCL and its subsidiaries, over the medium term.

**\* Adequate capitalisation to support medium-term growth plans**

Tata Capital has adequate capitalisation, with an absolute networth (on a consolidated basis and including minority interest) of Rs 4,132 crore as on March 31, 2016 (Rs 3,997 crore as on March 31, 2015). As on September 30, 2016, TCFSL and TCHFL had overall capital adequacy ratios of 16.18% and 15.61%, respectively (16.34% and 16.17%, respectively, as on March 31, 2016), and gearing of 7.1 times and 11.2 times, respectively (7.0 times and 10.7 times, respectively).

Tata Capital's consolidated gearing is expected to remain between 6 and 7 times on a steady state basis over the medium term. CRISIL believes that Tata Capital is adequately capitalised to absorb asset-side risks. CRISIL also believes that despite its significant growth plans, Tata Capital's capitalisation is expected to remain comfortable, given Tata Sons' commitment to support growth in the financial services business.

**\* Diversified resource profile**

Tata Capital also has adequate access to funding from a diverse base of lenders; the funding profile is fairly balanced with a mix of non-convertible debentures, bank borrowing, and short-term debt. TCL and its subsidiaries have the ability to mobilise debt at competitive costs, given their association with the Tata group.

**Weaknesses****\* Modest asset quality**

The asset quality in the wholesale lending segment has remained weak because of macroeconomic challenges and large exposure to relatively vulnerable segments. Furthermore, a sizeable proportion of the retail loan book remains unseasoned given the strong growth in recent years. TCFSL's gross non-performing assets (NPAs) remained high at 6.25% as on September 30, 2016 (5.34% as on March 31, 2016). Because of ongoing macroeconomic uncertainties, TCFSL's ability to maintain asset quality, especially in the wholesale lending book which has large ticket size exposures and has been under stress, will be a key monitorable. TCHFL's gross NPAs, while remaining low, also increased to 0.74% as on September 30, 2016 (0.72% as on March 31, 2016). Given TCHFL's strong growth, the impact of seasoning will be visible only over the medium term. CRISIL will monitor the ability of these companies to maintain low delinquency levels across asset classes over economic cycles.

CRISIL has also factored in potential stress in collections due to demonetisation. The government's demonetisation move, resulting in a severe contraction of cash in circulation, has led to short-term disruption in collections. CRISIL had discussions with the management and understands that the asset quality concerns have marginally increased in the commercial vehicle and rural banking space. Some dip in growth has been witnessed in the housing finance segment; however, there has been no major adverse impact on average collection efficiency.

**\* Average earnings profile**

Tata Capital's profitability remains average. Its return on assets (RoA) ratio is lower than that of its peers and was at 0.9% (on a consolidated basis, excluding profit on sale of investments) in fiscal 2016 as against 0.7% in fiscal 2015, driven by a modest net interest margin and increased credit cost. Tata Capital's earnings profile remains constrained by relatively low gross interest spreads, modest fee-based income, and high operating expenses. Furthermore, the earnings profile remains susceptible to any sharp increase in credit costs, especially in the wholesale lending business.

TCFSL's annualised RoA was 0.66% in the half year ended September 30, 2016 (0.9% in fiscal 2016 and 0.8% in fiscal 2015). In the quarter ended September 30, 2016, the company undertook one-time write-off of certain accounts through its balance sheet instead of profit and loss account. The total amount written off was Rs 543 crore and it was adjusted against the balance of share premium account. Of the total write-off, Rs 147 crore related to impairments in the value of investments, Rs 318 crore to bad debts, and the remaining Rs 78 crore to goodwill impairments. TCL infused capital of Rs 385 crore via CCPS, thereby keeping the network of TCFSL intact. In case the write-off had been routed through the profit and loss account in the regular course of business, it would have resulted in a loss for the first half of fiscal 2017.

TCHFL's annualised RoA for the half year ended September 30, 2016, was 1.08% (1.0% in fiscal 2016 and 0.9% in fiscal 2015). CRISIL will continue to monitor Tata Capital's profitability, operating efficiencies, scale of fee-based-income, and credit cost, over the medium term.

**Outlook: Stable**

CRISIL believes Tata Capital will remain strategically important to Tata Sons, and continue to benefit from the strong parental support over the medium term. The outlook may be revised to 'Positive' if earnings, asset quality, and competitive position improve significantly. The outlook may be revised to 'Negative' in case of a decline in Tata Sons' credit quality or support to Tata Capital, or significant pressure on the latter's capitalisation or asset quality.

**About the Company**

Set up in November 2010, TCFSL is a wholly owned subsidiary of TCL. Following the change in the holding structure for the financial services businesses, TCL transferred its lending business and the corresponding part of its liabilities to TCFSL with effect from March 27, 2012. TCFSL is one of the largest NBFCs in India, in terms of assets under management (AUM); it had AUM of Rs 30,110 crore as on September 30, 2016 (Rs 28,335 crore as on March 31, 2016). It has a diversified product portfolio, with a presence across both retail and wholesale finance segments. The company's principal business segments include automobile finance for non-Tata vehicles, loans against property, unsecured retail finance, construction equipment finance, project finance, and, term loan and working capital finance for companies and small and medium enterprises. As on September 30, 2016, TCFSL, on a standalone basis, had a network of Rs 3516 crore (Rs 3380 crore as on March 31, 2016) and operated from 99 branches in India.

In the first half of fiscal 2017, TCFSL had a profit after tax (PAT) of Rs 100.7 crore on a total income (net of interest expenses) of Rs 915 crore, against a PAT of Rs 113.5 crore on a total income (net of interest expenses) of Rs 719 crore in the corresponding period of the previous fiscal.

TCL is the holding company for several of the financial services businesses of the Tata group and is registered with the Reserve Bank of India as a systemically important, non-deposit-taking, core investment company. Tata Capital has a diversified product portfolio with a presence in both the wholesale and retail finance segments. It had sizeable AUM of Rs 43,881 crore as on March 31, 2016. The fund-based products and services are primarily offered by TCFSL (both wholesale and retail finance segments), TCHFL (mortgage finance), and TCCL (infrastructure finance). The non-fund-based services - distribution of mutual funds and insurance products, stock broking, and investment banking - are offered through the wholly owned subsidiary, Tata Securities Ltd. Tata Capital also offers travel and foreign exchange-related services to retail and corporate customers through two wholly owned subsidiaries, Tata Capital Forex Ltd and TC Travel and Services Ltd.

TCL (on a consolidated basis) had a PAT of Rs 413 crore on total income (net of interest expenses) of Rs 2,176 crore in fiscal 2016, against a PAT of Rs 306.6 crore on total income (net of interest expenses) of Rs 1,701 crore in the previous fiscal.
