Details of instruments/facilities in Annexure-1

CARE has rated the aforesaid Perpetual Debt after taking into consideration their increased sensitiveness to the Capital Adequacy Ratio (CAR), capital raising ability and profitability during the long tenure of the instruments. The rating factors in the additional risk arising due to the existence of the lock-in clause in the instruments. Any delay in payment of interest/principal (as the case may be) following invocation of the lock-in-clause, would constitute as an event of default as per CARE's definition of default and as such these instruments may exhibit a somewhat sharper migration of rating compared to other debt instruments.

Detailed Rationale & Key Rating Drivers

The revision in ratings reflects recent capital infusion by the ultimate parent, Tata Sons Limited into Tata Capital Limited and firm commitment for further capital infusion during FY19. TCL has further infused these funds as capital into its lending subsidiaries including TCFSL thereby strengthening their capitalization and supporting their growth. The ratings factor in the strength of the lending business housed under TCL and its subsidiaries' (including TCFSL, TCCL and TCHFL) characterized by sizeable loan portfolio with diversified mix of retail and wholesale book. The demonstrated capital support also highlights Tata Sons' stance towards growing the group's financial services businesses which are housed under TCL.

The ratings continue to factor in strong parentage (Tata Sons Ltd) and brand equity associated with the Tata Group, experienced management team and strong financial flexibility by virtue of being a part of Tata group. The ratings further take into account adequate capitalisation and relatively high gearing of the group's financial services business. The asset quality on an aggregate basis (including TCFSL, TCCL and TCHFL) has witnessed improvement in FY18 on the back of healthy asset quality of TCCL and TCHFL's book and improvement in asset quality of TCFSL's book. Further, the ratings also take into account the moderate profitability of the lending business on aggregate basis. Continued parentage and support from Tata group, capitalization, leverage, profitability and asset quality are the key rating sensitivities.

Rs.15000 Crore Commercial Paper	CRISIL A1+ (Reaffirmed)

Refer to annexure for Details of Instruments & Bank Facilities *Includes Non-Convertible Debentures and Subordinated Debt

Detailed Rationale

CRISIL has upgraded its long-term rating on the debt instruments of Tata Capital Ltd (TCL) and its subsidiaries, including Tata Capital Financial Services Ltd (TCFSL), collectively referred to herein as the TCL group to 'CRISIL AAA/CRISIL AA+/Stable' from 'CRISIL AA+/CRISIL AAA/CRISIL AA+/Stable'. The rating on the commercial paper programmed has been reaffirmed that 'CRISIL A1+'. CRISIL has also assigned its rating of 'CRISIL AAA/Stable' to the retail bonds of Rs.7500 crore of TCFSL

The rating action is driven by the increased strategic importance of the financial services business to Tata Sons Limited (Tata Sons; rated 'CRISIL AAA/FAAA/Stable/CRISIL A1+'). This is in line with the Tata group's focus on domestic consumption as a key theme in their growth philosophy. The TCL group, as the principal vehicle for non-captive lending, plays a key role through

Tata Sons has already infused Rs 1250 crore of equity capital in fiscal 2019 till date and is committed to infuse additional Rs 1250 crore by March 2019. This equity capital infusion in fiscal 2019 is almost equal to the Rs 2800 crore of total equity capital infused from inception till March 31, 2018, and is a strong indicator of the focus on the lending business.

The rating action also factors in the strong support by the parent Tata Sons demonstrated by articulation of its intention to (i) to maintain majority shareholding in the TCL group, (ii) to assist TCL group in organizing for any shortfall in maintaining capital adequacy as per applicable regulations and (iii) to conduct the business of TCL group in a manner that would enable TCL group to perform its obligations to all lenders and debt holders in full and timely manner.

TCL group's business performance has also improved, with significant scale-up and diversification in its portfolio over the past few years. Asset quality and earnings are also on an improving trend, with the group discontinuing businesses which have posed asset quality challenges in recent years. The TCL group is also further strengthening its risk function- both in people and in processes, which should hold it in good stead. Capital position will remain comfortable, with continued capital infusion

Analytical Approach

For arriving at its ratings, CRISIL has combined the business and financial risk profiles of TCL and its subsidiaries TCFSL, Tata Capital Housing Finance Limited (TCHFL), and Tata Cleantech Capital Limited (TCCL). They have significant operational and management linkages, and operate under the common Tata Capital brand. Furthermore, most of TCL's earnings (on a consolidated basis; excluding one-offs) are accounted for by its two main subsidiaries, TCFSL and TCHFL.

Key Rating Drivers & Detailed Description Strengths

* Strategic importance to, and expectation of strong support from the ultimate parent, Tata Sons

CRISIL's ratings on debt instruments of TCL group continue to be based on the expectation of strong support that the group is expected to receive from the ultimate parent, Tata Sons. This is due to Tata Sons' majority ownership in the TCL group, coupled with the increasing importance of the financial services business to the Tata group.

Tata Sons directly owns 93.22% of TCL's equity shares and most of the remaining stake is held by the other Tata group companies and trusts. TCL in turn holds 100% stake in its two main subsidiaries- TCFSL and TCHFL. Tata Sons also has personnel from its senior management on TCL's board. Tata Sons has infused equity capital of around Rs.4050 crore in TCL since TCL's inception; Rs 1250 crore of this has been infused just in fiscal 2019 till date indicating the intent of the group to

TCL group, as the Tata group's non-captive lending vehicle, is the primary financial services arm, and remains critical to the group, given the growth opportunities in this sector over the medium to long term. TCL group is also strategically important to the Tata group because it caters to the funding requirements of various entities associated with the group, such as its suppliers, vendors, and dealers. The shared brand and infrastructural synergies with various Tata group companies strengthen the integration of the TCL group with the overall Tata group. Business synergies are set to increase further as TCL

taps into the Tata group ecosystem as part of its growth strategy. CRISIL believes that Tata Sons will continue to have majority ownership in, and management control of TCL and its subsidiaries, over the medium term.

* Comfortable capitalization to support medium term growth plans, supported by regular infusion from parent TCL group has comfortable capitalisation, with absolute networth (on a consolidated basis) of Rs 6647 crore as March 31, 2018 (Rs 6044 crore as on March 31, 2017). The capital infusion in fiscal 2019 will further strengthen the networth. As on March 31, 2018, both TCFSL and TCHFL remained adequately capitalised with overall capital adequacy ratio of 16.68% and 17.22% respectively (16.07% and 16.01% respectively as on March 31, 2017 respectively) The gearing of TCFSL and TCHFL stood at 6.3 times and 10.3 times respectively as on March 31, 2018 (6.7 times and 11.9 times respectively as on March 31, 2017). TCL group's consolidated gearing stood at 8.0 times as on March 31, 2018. CRISIL believes that TCL group is adequately capitalised to absorb asset-side risks. CRISIL also believes that despite its significant growth plans, TCL group's capitalisation is expected to remain comfortable, given Tata Sons' commitment to support growth in the financial services

* Diversified resource profile

TCL group also has access to funding from a diverse base of lenders; the funding profile is fairly balanced with a mix of nonconvertible debentures, bank borrowings, and short-term debt. As on March 31, 2018, overall market borrowings stood at about 60% of total borrowings. TCL and its subsidiaries have the ability to mobilize debt at competitive costs, given their association with the Tata group.

Weaknesses

* Average asset quality; expected to improve with strengthened risk management systems and processes

Asset quality is expected to improve going ahead with the group exiting segments such as infrastructure lending in which they have faced asset quality challenges in the past, as well as the strengthening of the risk management infrastructure.

On a consolidated basis, TCL group's gross non-performing assets (NPAs) and net NPAs stood at 2.4% and 0.7%respectively as on March 31, 2018, lower than the 3.4% and 0.9% respectively as on March 31, 2017. In case of TCFSL, gross NPAs have come down to 3.3% as on March 31, 2018 from 4.9% in March 2017 and 5.3% in March 2016; a large part of this has been driven by write-offs in discontinued businesses. Asset quality in the continuing businesses is better and with the enhanced focus on risk management, is expected to improve going ahead. However, the impact of seasoning as well as the ability to manage the unsecured loan book, whose share is expected to increase, will need to be seen over time.

TCHFL's gross NPA, while remaining low, has inched up to 1.2% March 31, 2018 from 0.9% as on March 31, 2017 and 0.7% as on March 31, 2016. However, excluding proactive early recognition of a large account, gross NPA would have been 0.9% as on March 31, 2018, in line with industry average. Given TCHFL's strong growth, the impact of seasoning will be visible only over the medium term. TCCL had no gross NPAs as on March 31, 2018.

CRISIL will monitor the ability of these companies to maintain low delinquency levels across asset classes over economic

* Moderate, though improving earnings profile

TCL group's profitability has been subdued in the past due to high credit costs. Net interest margins (based on total income) have been relatively stable at over 5% for the past 3 years. Reduction in credit costs in fiscal 2018, though partially offset by an increase in operating expenses, has led to an increase in the consolidated RoA to 1.3% in fiscal 2018 from 0.9% (reported; excluding impact of one-time write-offs through reserves) in fiscal 2017. TCFSL's RoA in fiscal 2018 improved to 1.3% as compared to 0.7% (reported) last year while TCHFL's RoA stood at 1.1%, almost unchanged from 1.2% last year.

With expected improvement in asset quality, earnings metrics are also expected to move up. The healthy CRISIL-adjusted provision coverage ratio (PCR), at around 73% for TCFSL and 61% for TCHFL, also support profitability. CRISIL will continue to monitor TCL group's profitability, especially credit costs and operating efficiencies over the medium term.

CRISIL believes that TCL group will remain highly strategically important to Tata Sons, and continue to benefit from the strong parent support over the medium term. The outlook may be revised to 'Negative' in case of a decline in Tata Sons' credit quality or in CRISIL's view, a diminution in expected support to TCL group. The outlook may also be revised to 'Negative' in case of significant pressure on the TCL group's asset quality, impacting the group's earnings. **About the Company**
