

REMUNERATION POLICY

1. COMPENSATION PHILOSOPHY

Tata Cleantech Capital Limited (“Company”) has adopted a Remuneration Policy based on a defined formal compensation philosophy of Tata Capital Limited, the holding company. In order to build a high performance culture, aligned to the Company’s Vision and Goals, the Compensation Philosophy aims at providing a significant differential to superior performers and also segregating increments and performance payouts, based on the actual performance of various business verticals.

The aforementioned Compensation philosophy aims to:

- Build capability by attracting the right talent.
- Recognise performance and talent.
- Be in sync with industry while managing overall manpower cost.

The performance of the Company and its Business Units / Functions is measured against annual budgets / targets, set as per the Balanced Score Card (“BSC”). Performance of individuals is measured against Key Result Areas (“KRAs”) set at beginning of year and after considering any revision of target during the year. The Annual Performance Rating would be considered for calculating the Performance Pay. Rating would be on a 5 point scale.

Consistent with the principle of differential influence that an employee may have on the overall performance of the Company, different weights are assigned for the Company’s performance, the performance of Business Units / Functions and the performance of individuals. Thus, employees in entry level / junior management have greater weightage for individual performance while employees in senior leadership roles have maximum weightage for Company and Business Unit Performance.
